Productivity by Season

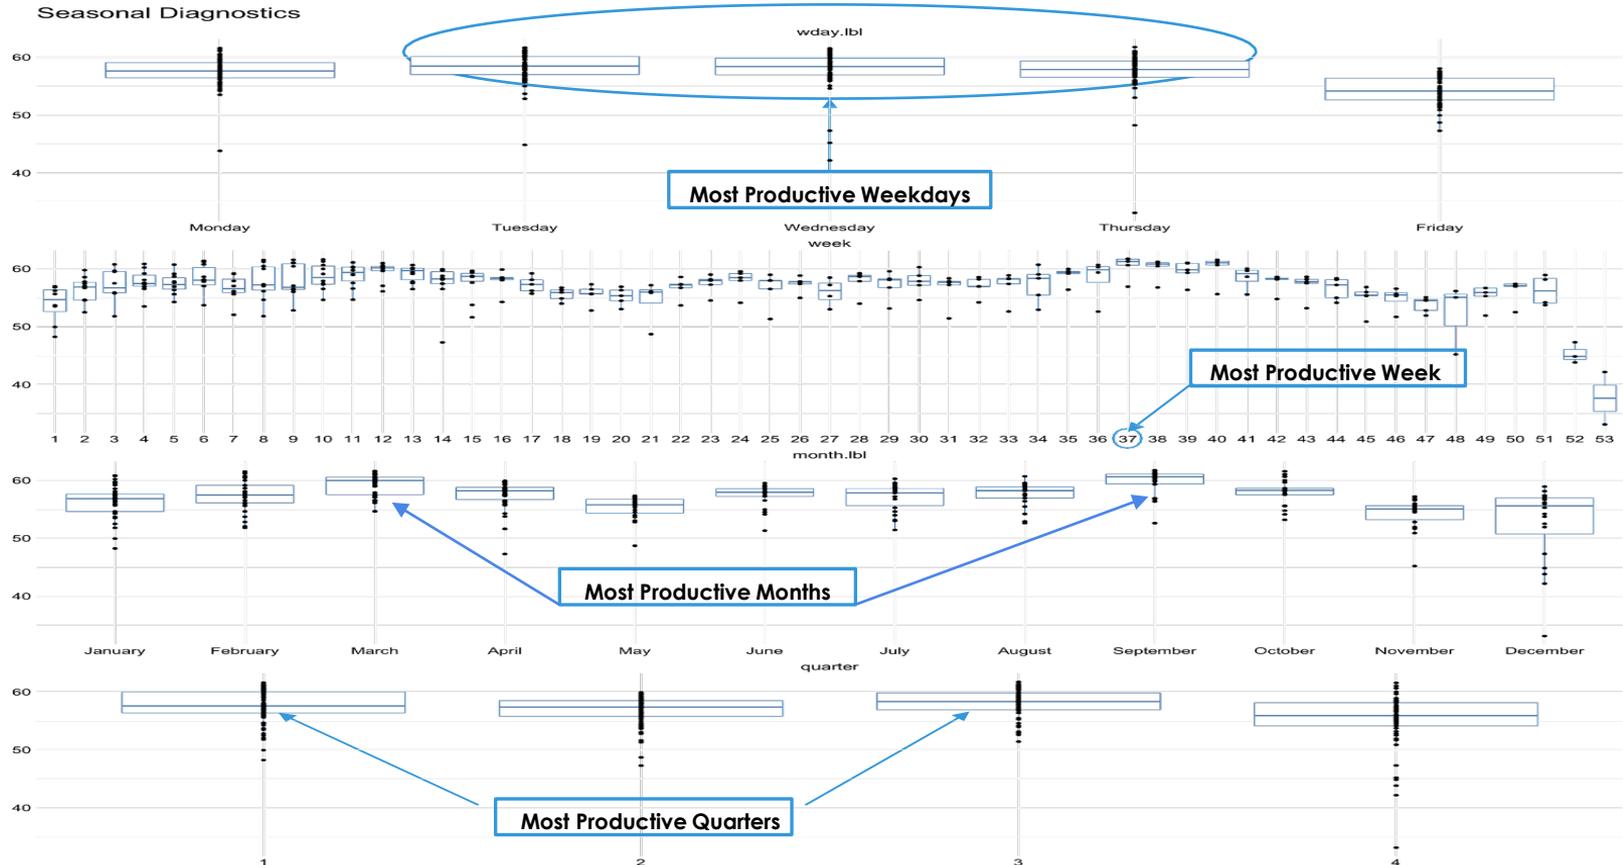

Season

- Winter
- Spring
- Summer
- Autumn

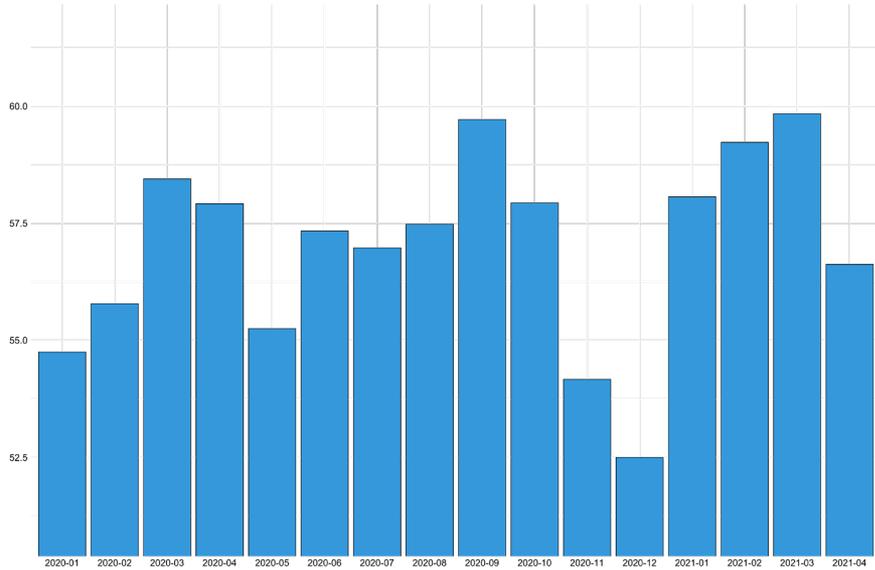

Seasonality

A recurring pattern at a fixed and known frequency based on a time of year, week or day

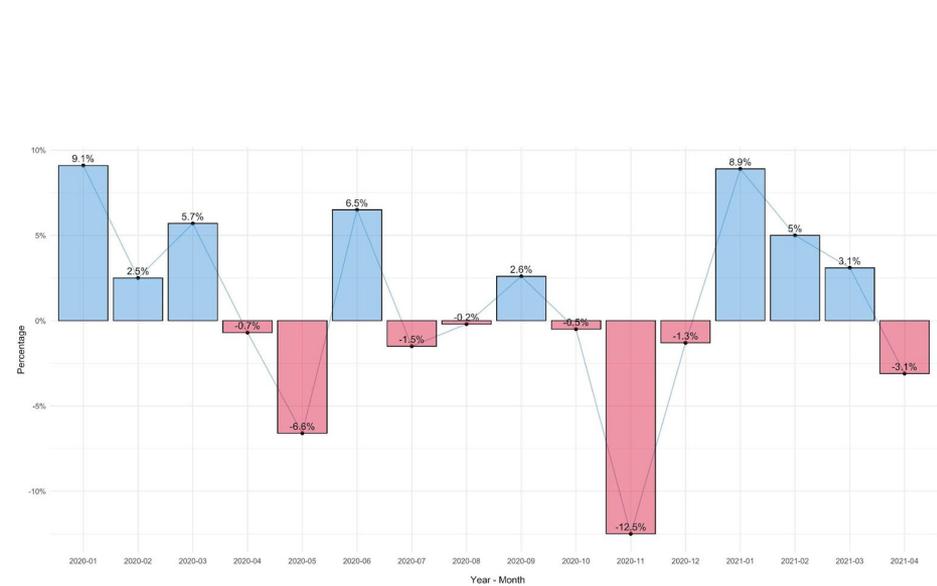

Month over Month Productivity

A closer look at the ebb and flow of productivity
January 2020 – April 2021.

Productivity by Weekday

Across all U.S. companies, Monday and Friday are the least productive days of the week

Mondays are only the most productive in the instance they are the last working day of the month; August 31, 2020 and November 30, 2020 both fell on a Monday.
